2011: NY Auto Show Hybrid Tribute Car Facebook.

This car is a model year 2011 car with 2013 upgrades (done at the factory). MSRP in 2011 was approx. \$500,000. The engine has a life of 35 hours between factory rebuilds. Engine has approx. 18 hours of use and gearbox currently has less than 1 hour. The exterior body panels are all carbon fiber. This particular GT3R has been raced in World Challenge and is currently spec for GT as of the end of last season.
